

FLEETCOR Named to Newsweek's List of the Top 100 Global Most Loved Workplaces For 2023

June 8, 2023

NEW YORK--(BUSINESS WIRE)--Jun. 8, 2023-- [FLEETCOR Technologies, Inc.](#) (NYSE: FLT), a leading global business payments company, was recently named to [Newsweek's](#) annual list of [Top 100 Global Most Loved Workplaces](#)[®]. The 2023 Global Top 100 Most Loved Workplaces[®] is the newest list in the Most Loved Workplace[®] collaboration with the Best Practice Institute (BPI), a leadership development and benchmark research company.

"It's an honor to be on [Newsweek's](#) Global Top 100 Most Loved Workplaces[®] as the recognition reinforces our commitment to providing the best possible work environment for more than 10,000 employees worldwide," said Crystal Williams, Chief Human Resources Officer at FLEETCOR. "More gratifying is that it was the voice of our employees which earned our place to this prestigious list. FLEETCOR is truly a great career destination, and we are truly thrilled by this recognition."

The results were determined after surveying more than 2 million employees from businesses with workforces varying in size from 30 to more than 10,000. The list recognizes companies that put respect, caring, and appreciation for their employees at the center of their business model and, in doing so, have earned the loyalty and respect of the people who work for them.

How positive workers feel about their future at the company, career achievement, how much employer values align with employee values, respect at all levels, and the level of collaboration at the firm were the five critical areas measured to gauge employee sentiment. In addition, areas such as inclusion, diversity, equity and belonging, career development, and company leadership were identified and analyzed in relation to the five critical areas measured.

"While workplace dynamics continue to evolve, the power of a positive culture remains constant," said Nancy Cooper, Global Editor in Chief of Newsweek. "The companies featured on the 2023 Global Most Loved Workplaces[®] list embody this transformative spirit, proving that when companies prioritize their people, success naturally follows."

Methodology

To identify the top 100 companies for the Newsweek ranking, companies were evaluated and scored as follows: 35 percent of the initial score was based on responses to BPI's proprietary Love of Workplace survey. Another 25 percent was derived from analysis of external public ratings from sites such as Comparably, Careerbliss, Glassdoor, Indeed and Google. The final 40 percent came from direct interviews with and written responses from company officials. Newsweek then conducted additional research into every company on the list, as well as the top runners-up, to determine the final list of 100 companies and their rankings.
