Meet the new Corpay Lodging mobile app—a cleaner, smarter, more powerful way for workforce travelers to book and manage hotel stays on the go.

Meet the new Corpay Lodging mobile app—a cleaner, smarter, more powerful way for workforce travelers to book and manage hotel stays on the go. Starting today, Corpay Lodging members can download the redesigned app for free on iOS and Android.

Whether you're booking travel for a dispersed workforce or just trying to get through check-in after a long shift, this app is built to make the experience simpler and frustration-free.

"We're solving for real-world travel," said Ryan Guthrie, Lodging Group President of Corpay. "With more hotel options, smarter tools, and a completely reimagined experience, we're giving crews and coordinators exactly what they need. And early feedback shows it's already making workforce travel easier, more predictable, and more efficient."

The new Corpay Lodging app features:

- **A clean, modern design** that gets you from search to booked in a few taps
- **Enhanced hotel listings** with updated visuals and map-based search
- **Smart filters** —like 3 types of truck parking—to narrow down what matters
- **Integrated loyalty programs** with numbers applied automatically when eligible
- **Full reservation management** —view reservations, get directions and real-time support in a few taps
- **Expanded hotel network** across the U.S. and Canada
- **24/7 Help Hotline access** —with no hidden agent assist fees

"We redesigned everything with our users in mind," added Chris Kramer, Chief Product Officer for Corpay's lodging solutions. "Cleaner visuals, better hotel data, more control—this is travel tech made for people who don't sit behind a desk."

Corpay Lodging supports field-based industries like construction, transportation, energy, and government, booking over 20 million room nights a year. The new app is part of the company's larger mission to modernize, control costs, and simplify workforce travel across the U.S and Canada.
